

Common Changes:

- As per discussion kindly keep the session 15 min if screen is IDEAL then logout or FRONT END, USER ADMIN, SUPER ADMIN.
- All placeholders should be in small letters.
- Remove scrolling from all windows. **Not Valid**
- In each popup, reduce the width and increase the height. Content formatting should match the FIGMA design.
- All screen windows should be equal in width and height and should not increase or decrease according to the content. Fixed width & height should be maintained. **Not Valid**
- Admin approval should start after prescription upload. **Re-write**
- Kindly stop screenshots. If anyone presses the screenshot button, the screen should blackout while taking the screenshot.
- Remove all back buttons from all screens.
- Increase button heights according to the FIGMA design.
- All heading font sizes should be equal and in one line. The font size of the body content should be equal throughout the website. **Not valid for web version**
- In the Admin Panel, kindly show the PDF preview when the user clicks on FILE. As of now, only image preview is showing.
- PDF preview is currently not showing in the frontend and Admin Panel.
- In the Admin Panel: the file is not changing in the revised quote, which is why the user is receiving the same file.
- Remove this content from everywhere on the below screen: “Wait for document or approval to proceed.”
- SMS & Email are not coming on any screen.
- On each button where “Continue” is written, change it according to the FIGMA design, like “Continue to Next.”
- Admin: Screenshot Given Below: Make it in sequence like FRONT End. Here is the sequence: Quotation -> Proforma Invoice -> Import License
 - Also we should know that status.. As of now Nothing changes after Approved Button clicked only notification is coming. No need to refresh. Status changed automatically in fraction of seconds.

Document Requests

Manage requested documents

Type	Requested At	Status	Documents	Actions
Import License	-	Pending	No documents	Browse... No files selected. Approve Reject
Medicine Quotation	08/05/2026	Requested	No documents	Browse... No files selected. Approve Reject
Proforma Invoice	-	Pending	No documents	Browse... No files selected. Approve Reject

- KINDLY increase the POPUP DURATION to 10 seconds through out the flow. **Re-write**
- KINDLY show all the open tooltip window within the screen. Because if user is opening the website in mobile then it will come scrolling if open window is out of screen. **Not Valid**
- IMPORTANT POINT:
 - HIDE THE URLS to users so dummy URLs **Not-Understand**

Screen1.

Top & Bottom Centre Aligned the Margin.

Legal Access to Medicines

According to India's Drugs and Cosmetics Act, 1940 and the Drugs and Cosmetics Rules, 1945, individuals may be permitted to import prescribed medicines for personal use if such medicines are not available or approved locally, provided they meet defined conditions, hold a valid prescription, and obtain necessary approvals.

Next

Access You Can Trust

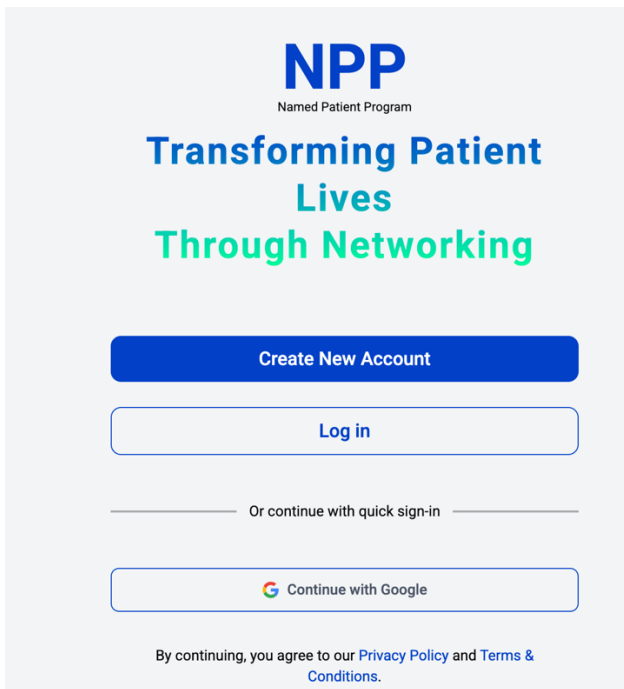

Our application provides simple, secure access to legally available medicines through a compliant process aligned with approved import pathways, guiding users from request submission through regulatory steps while safeguarding personal information and using it only for verification.

Get Started

Screen2.

- Single line – “Transforming Patient Lives...”
- “Single” in T&C.
- Remove vertical scrolling.

Singup Screen:

- Use OTP via mobile number only for India. For users outside India, OTP should be sent via email on the Signup and Login screens. **Add New Changes**
- Use a country list dropdown. If the customer selects any country except India, then the Email ID field should appear. If India is selected, then the Mobile Number field should appear. Due to this, most of the problems will be resolved. **Add new Changes**
- On backspace, the flag option is getting removed. Freeze the backspace for +91 (keep +91 fixed).
- Decrease the space between “Enter OTP” and the “Continue” button.
- Add this line below on the Signup page: “Or continue with quick sign-in.”
- There is a problem while entering the number. When adding the number in fast mode, the first character is not being accepted. **Already Discussed**
- Session timeout is not yet set on the same browser.
- OTP is not coming on email, but the frontend is showing “OTP sent successfully.”

In Below Screens Error:

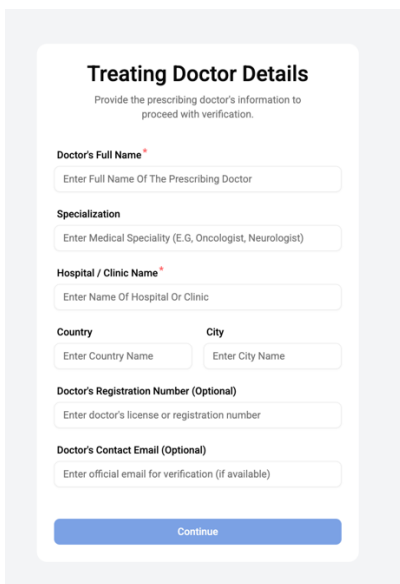

- Remove the back button from the below screen. **Already discussed its show when user try to second order**
- In manual entry, remove all search options and dropdowns. **Re-write**
- Disable the Storage Conditions and Manufacturer fields. **Already Disable**
- Remove the word “Optional” from Storage Conditions & Manufacturer. **Re-write**
- Correct the spelling of “Pack Size.”

- Add the word “Required” in front of Quantity.

The image shows a mobile app screen for 'Prescribed Medicine Details'. It features a back arrow in the top left corner. The form is titled 'Prescribed Medicine Details' with a subtitle 'Share medicine information based on your prescription for verification'. The form contains several input fields: 'Medicine Name' (with placeholder 'Enter Brand Or Generic Name Of The Medicine'), 'Active Ingredient / Salt Composition' (with placeholder 'Active Ingredient / Salt Composition In The Medicine'), 'Strength' and 'Dosage Form' (both dropdown menus with 'Select option'), 'PakeSize' (dropdown menu with 'Select option'), 'Quantity' (dropdown menu with 'Select option'), 'Storage Conditions (Optional)' (with placeholder 'E.G., 15-25, 2-8 Celcius'), and 'Manufacturer (Optional)' (with placeholder 'Medicine's Manufacturer'). A blue 'Continue' button is at the bottom.

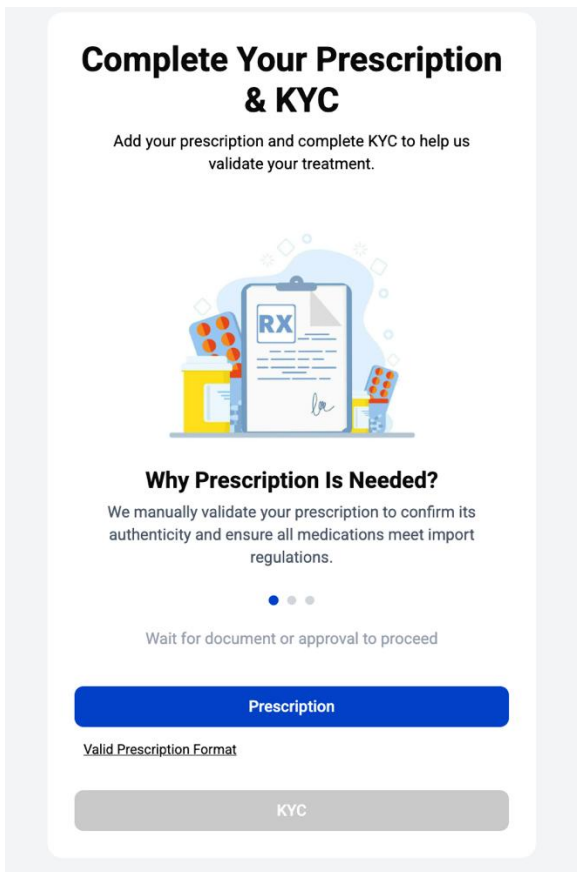

In below Screen:

The image shows a mobile app screen for 'Treating Doctor Details'. It features a back arrow in the top left corner. The form is titled 'Treating Doctor Details' with a subtitle 'Provide the prescribing doctor's information to proceed with verification.' The form contains several input fields: 'Doctor's Full Name' (with placeholder 'Enter Full Name Of The Prescribing Doctor'), 'Specialization' (with placeholder 'Enter Medical Speciality (E.G, Oncologist, Neurologist)'), 'Hospital / Clinic Name' (with placeholder 'Enter Name Of Hospital Or Clinic'), 'Country' and 'City' (both dropdown menus with 'Enter Country Name' and 'Enter City Name' respectively), 'Doctor's Registration Number (Optional)' (with placeholder 'Enter doctor's license or registration number'), and 'Doctor's Contact Email (Optional)' (with placeholder 'Enter official email for verification (if available)'). A blue 'Continue' button is at the bottom.

-  Remove the word “Optional” from Doctor’s Registration and Doctor’s Contact.  Re-write

In below screen:

Heading should come in single line. **this is the responsive website, but we do it**

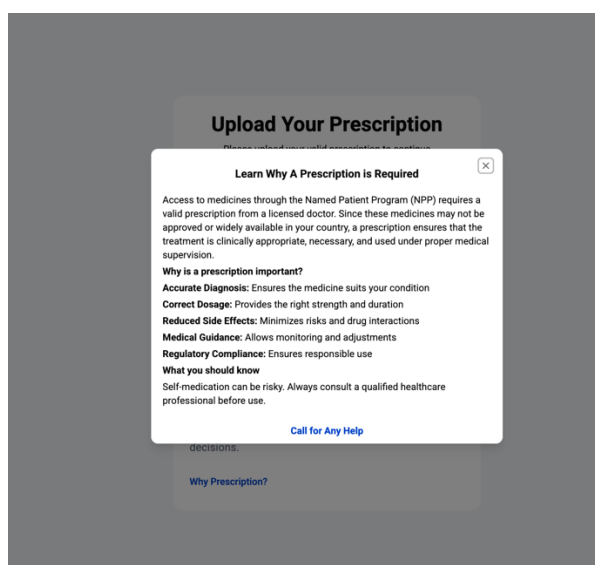

Remove this line: Wait for document or approval.....

Valid prescription format : Pulkit will provide the images. **this is not completed after figma final**

In Below screen:

Check and Update the content according to FIGMA

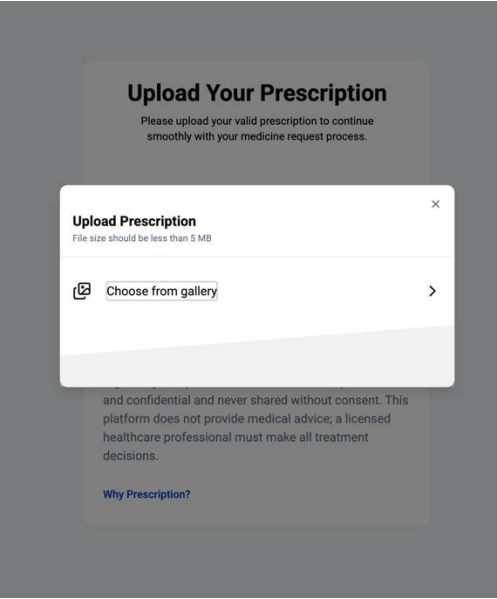

Formatting the content according to the FIGMA. Match according to the design.

In Below screen:

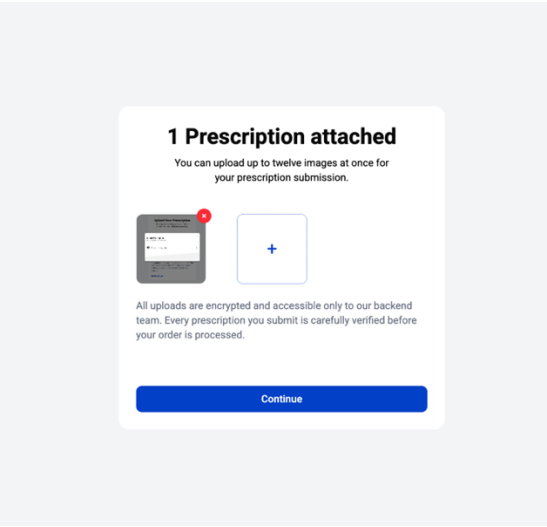

Decrease the box’s width.

Clicking on FULL ROW... as of now we need to click on Text.

In Below screen:

Make the screen according to FIGMNA design. As per discussion with Bharat he wants 12 box after + Sign.

In below image PDF preview is not showing according to the

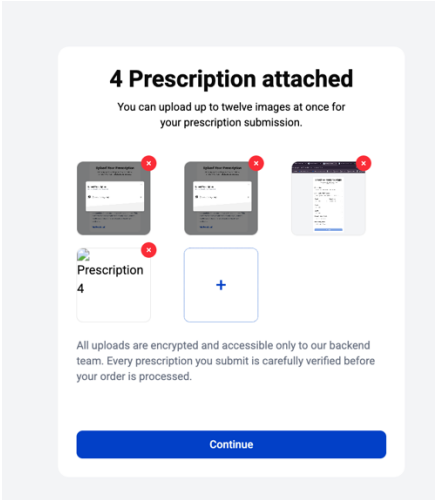

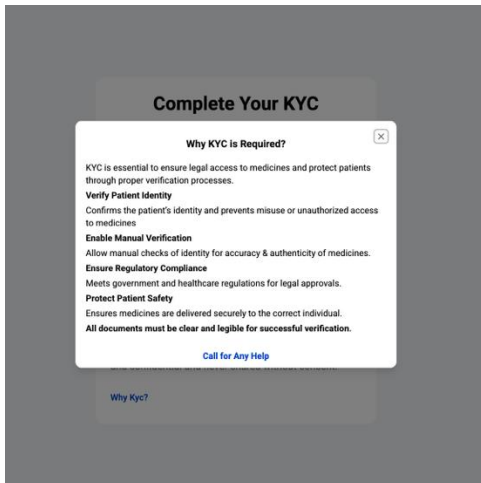

image. If not possible then show PDF Icon.

In Below Screen:

Formatting is not coming according the FIGMA so make like that.

In Below Screen:

Passport number unable to modify like backspace is not working.

Change the content of BUTTON according to FIGMA in Both AADHAR and PASSPOT.

Tooltip box going out of the frame and Functionality must be as like FIGMA. **Already discussed**

A screenshot of a mobile application screen titled "Upload Your Passport". The screen has a light gray background. The main content area is white and contains the following elements: A heading "Upload Your Passport" with a subtitle "Enter your passport number and upload the front and back for identity verification." Below this is a "Passport Number" section with a label "Enter your 8-character passport number" and a row of eight input boxes containing the characters "1", "2", "3", "4", "D", "G", "T", and "Y". To the right of the input boxes is a blue eye icon. Below the passport number section is an "Upload Passport Front" section with a label "Upload front side of Passport (PDF or image)" and a yellow question mark icon. It features a "Select front image" button, a "Preview" link, and a "Re-Upload" link. Below this is an "Upload Passport Back" section with a label "Upload back side of Passport (PDF or image)" and a yellow question mark icon. It features a "Select back image" button, a "Preview" link, and a "Re-Upload" link. At the bottom of the screen is a blue "Continue" button.

In below Screen:

Heading & Body texts are not same like FIGMA.

Your Request Journey

Manage your quotation, proforma invoice, and import license in one simple flow.

Why You Need a Quote?

A medicine quote helps you understand pricing and availability before proceeding with your order. This process usually takes 24–48 hours.

Request Medicine Quotation

Request Proforma Invoice

Request Import License

In Below Screen:

No preview of PDF file.

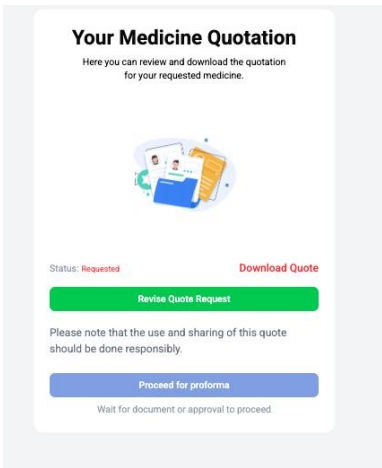

Your Medicine Quotation

Here you can review and download the quotation for your requested medicine.

Download

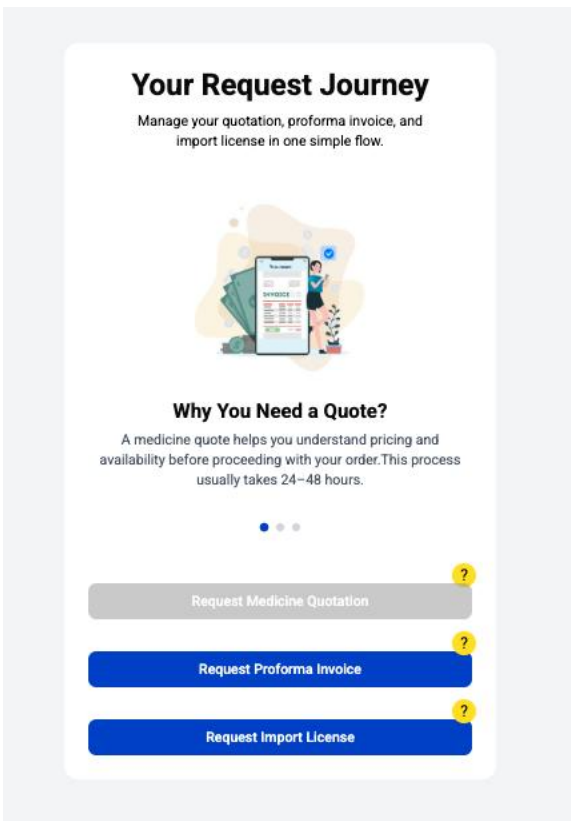

In Below screen:

Wait for document or approval to proceed

In Below screen:

Change content according FIGMA.

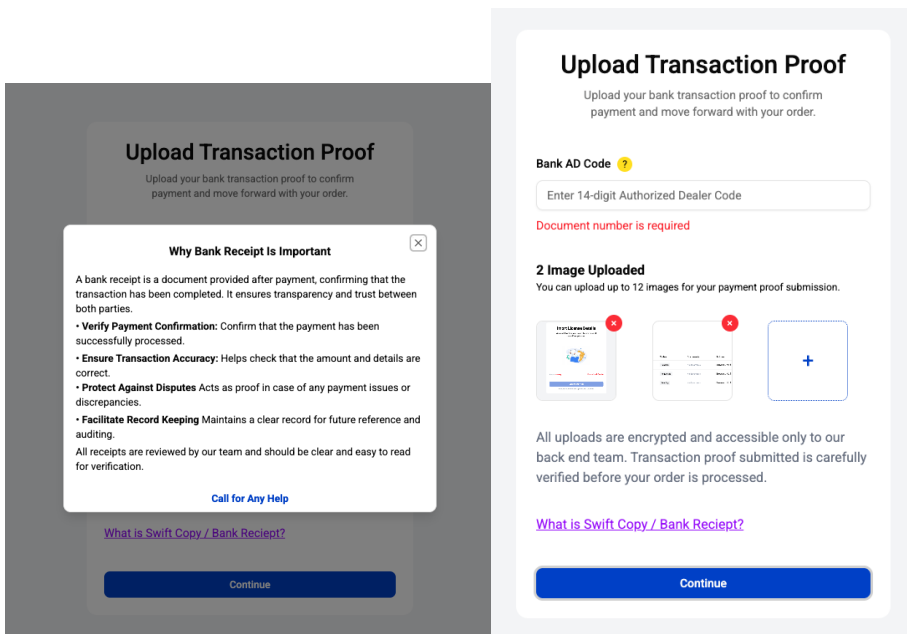

Change Download quote TO Download Import License

In below Screen:

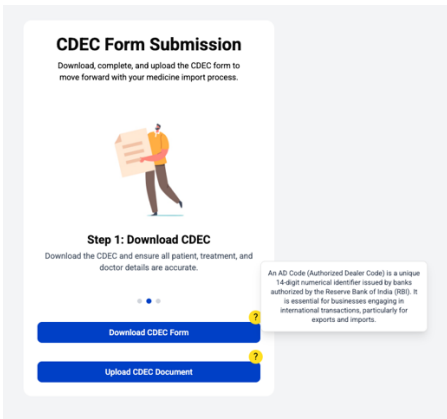

Formating should be like FIGMA

AD code should be Optional. **Re-write**

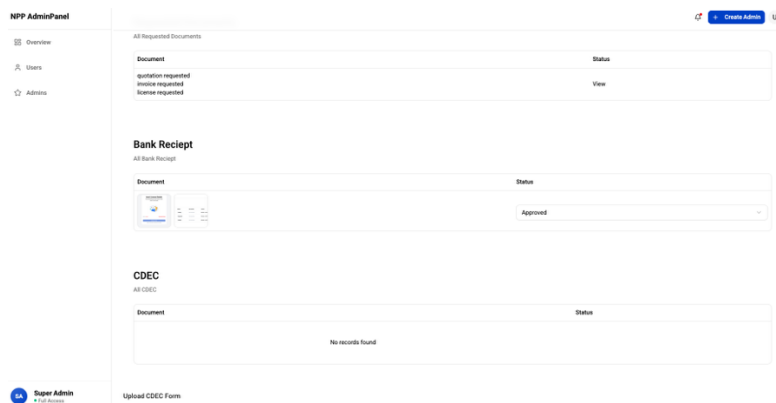

In below screen:

Tooltip – open windows should be within the screen. **Already Discussed**

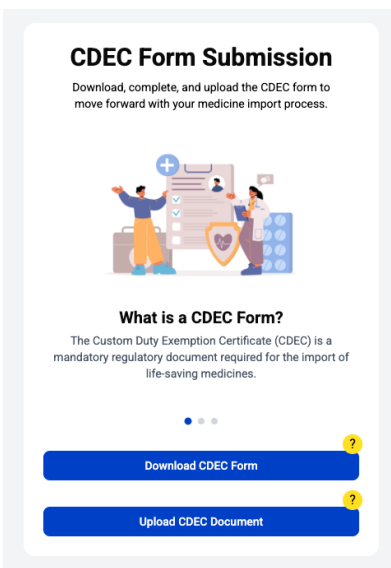

In BELOW ADMIN SCREEN:

Process of download CDEC form, user will download which Admin will upload the CDEC form. So create the panel where admin can upload the CDEC form, After that user will download and upload the CDEC form.

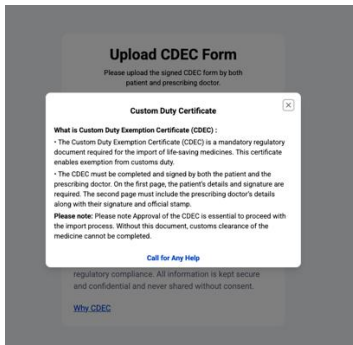

Currently random file is showing on CDEC form to download for Users.

In Below Screen:

After click on WHY CDEC (Replace with this Why CDEC is Required) word after why CDEC – this popup Open and content is not correct which should be as per FIGMA.

After click on Upload CDEC document in Next screen change the content – (1 Image uploaded) as of now written 1 CDEC Uploaded so correct this. FOLLOW according to FIGMA

In Below Screen:

Remove Skip link from right top corner and place on After Add Delivery Address in Corner of the screen.

Kindly seprate in two section – Contact Details and Address Details – FOLLOW the FIGMA.

Correct the country Box – we will only deliver in India. SO there is no need of country list.

After submitting the details or Skip the above window. User will redirected on below screen afer 3 Second it will redirected on User Dashboard. IN FIGMA it's already connected.

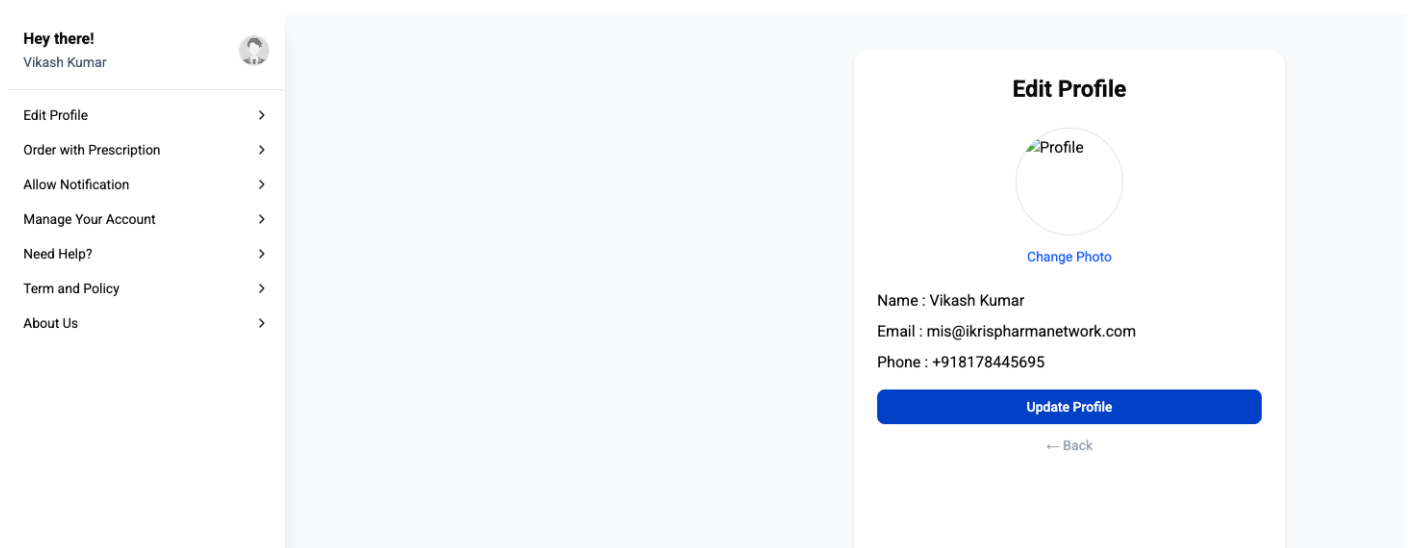

NOW USER ADMIN DASHBOARD:

In below screen:

Edit profile page is not yet developed according to FIGMA. **Already Discussed**

Set any default Profile Photo until user can update his/her photo.

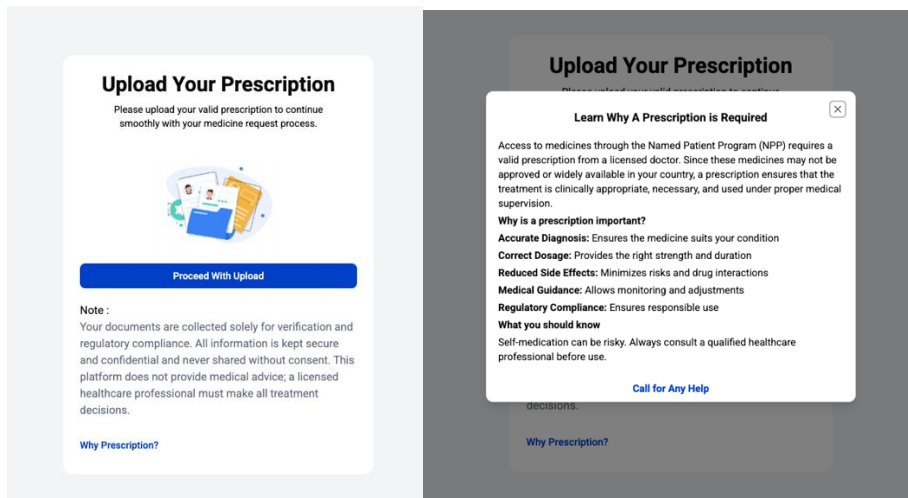

Profile photo is not updating.

In Below Screen:

Content is according FIGMA.

Why Prescription click POPUP formatting is not according to FIGMA. Image given below. **Already Discussed**

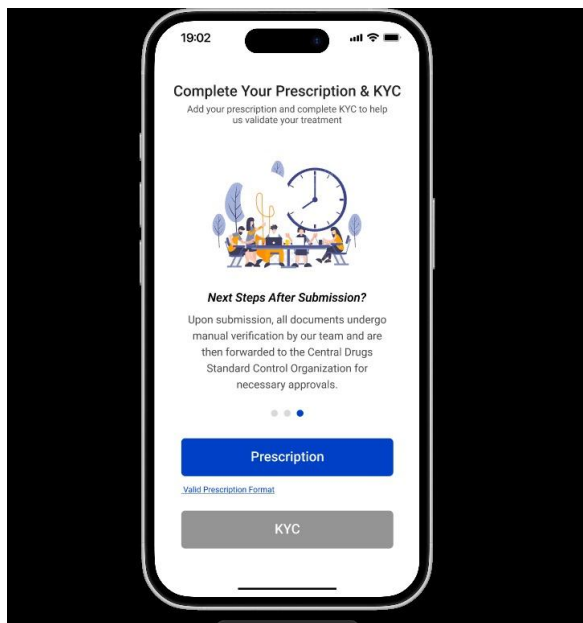

When user click on Order with Prescription we need create three cases where we need redirect the User to follow the PROCESS. For this On click open POPUP window in dropdown let user choose and submit and redirected accordingly. **Re-write and New Functionality Add**

IMPORTANT: we required a button or link where existing can reach on Dashboard. **Not understand**
